Argus (contest project - 2005)

Brief : Imagine a convertible utility vehicle (1st proposal).

DAY DELIVERY

inconvenience

- 60% delivery movements between 9 and 12 o'clock
 - traffic jams
 - stressed driver
- town planning
 - closed pedestrian areas during the day
 - inaccessible delivery areas

advantage

- customer disponibility

evolution margin : WEAK

NIGHT DELIVERY

inconvenience

- customer disponibility
- nuisances
 - handling noise
 - vehicle noise
- specific driving conditions

advantage

- traffic fluidity
- accessible delivery areas
- parking easiness

evolution margin : HIGH
